

We collaborate with renowned manufacturers such as ACO, Geberit, Georg Fischer, Grohe, Grundfos, LG, and Viega.

Collaboration makes us stronger

## Technical Advice and Additional Services

We go beyond just supplying products.

We believe in fixing your technical issues. Think of things like ease of installation, fire protection, sprinkler technology, sound insulation, maximum load, or capacity calculations. From drawing to execution, we are happy to assist you! With our extensive range of additional services, we can support your project where needed.

### Logistical Solutions Prefab

In addition to individual materials, you can also rely on us for prefab parts and systems. Thanks to the pre-assembled materials, you can work quickly and efficiently on location.

### Mobile Warehouse

To keep your work organised, we deliver a mobile warehouse to the construction site with everything you need. Neatly arranged and fully equipped, this will prevent you from suddenly running out of materials for peace of mind.

### Mobile Inventory Cabinet

A mobile inventory cabinet optimizes logistics on the construction site, ensuring that the right materials are always at hand.

### Digital Solutions

With increasing digitization, we try to make it as easy as possible for you on a technical level. We achieve this through our website, app, and much more! You can find all digital solutions to order even faster at [vanwalraven.com/en/services](http://vanwalraven.com/en/services)

### Clothing Management System

With our clothing management system, clothing, PPE, and other personal equipment can be ordered online. Prior to setting up, the correct size for each person, per piece of clothing, will be entered to make ordering even easier.

### Rental Options

Think of a fully equipped mobile warehouse that can go straight to the location or a mobile inventory cabinet so that everything you need is within reach. We can transport products for you, no matter how big or small they may be, with our stainless steel transport carts. We keep your worries to a minimum!

### Custom Planning

We are happy to support you in your projects and provide expert advice so that your project proceeds as efficiently as possible. Based on a capacity calculation and drawing, we can develop a complete ventilation plan or create

a custom irrigation plan. For smaller challenges like custom cutting or larger BIM projects, we also help make a difference with custom prefab solutions.

### Sustainable Entrepreneurship

As a family business that has existed for over 55 years, we realise every day that we must consider the generations to come. We strive to maximise the talents of our employees and continuously reduce our own impact on the environment. We want to contribute to the stability of society. To achieve this, we (together with our employees, customers, and suppliers) look for smart and sustainable (circular) solutions. Scan the QR code and find out more about what else we do.

- Pumps
- Sedum Roofing
- Signage & Barricades

The infrastructure and installation industry is becoming increasingly digital, which is why we ensure that you can do business with us optimally and digitally 24/7. We have the right solutions available for you, both online and electronically.

Through the DICO standard, you can exchange electronic messages from your own software, from order to order confirmation and delivery note to invoice. You can also link your software to vanwalraven.com via web selection, and experience the convenience of immediate online ordering.

On vanwalraven.com, you can access your order history, backorders, invoices, (company-wide) lists, technical product information, and various authorisation options. Benefit from features such as taking over shopping carts, live chat, insight into stocks, personalised prices, various product configurators, and much more. All these functionalities are also available via the Van Walraven app, which even allows you to scan barcodes.

**Ordering**

Customers in Belgium, Luxembourg, Germany, and France can place orders through our web shop. For other countries, this is (currently) not possible but customers can request a quote via chat, email, or phone. Would you prefer direct contact? We are happy to assist you at our sales desk, at +31 (0)297 - 300 350. Payment is possible via bank transfers. For orders up to €5,000, our administration department can also generate a payment link, allowing the customer to pay with a credit card or via PayPal (insured).
