INSTALLATION

Sewer & Drainage

A huge selection

Drainage systems, drain pipes, sump pumps, catch basins, and infiltration crates. For anything related to sewer and drainage, you've come to the right place. Inside, you'll find a snapshot of our extensive range. We keep it in stock for you!

Google Play Store App Store

Download the Van Walraven app and scan barcodes to add products to your cart right away and check current stock.

For the right installation

We offer an exceptionally wide range of drainage and sewer products. Whether you need drain pipe for runoff or a repair coupling, we keep it in stock for you. This brochure highlights a selection of the products you work with every day.

Low-noise drainage systems for indoor plumbing

Some installations require a low-noise drainage system. At Van Walraven, we offer several options, including Pipelife Master 3 Plus.

MASTER 3 PLUS is the PP indoor drainage system with pipes and fittings, designed and manufactured to meet today's building and construction challenges.

Benefits at a glance:

- Save time and money: the fully socketed fitting range means fewer couplers are needed during installation.
- Noise reduction up to 19 dB(A).
- Complete range available in black. ● Unique double socket can be used in two ways:
- As a slip coupling
- As a push-fit coupling

Drainage Systems

Our drainage system assortment includes:

- PE, PVC, and steel
- Pressurized and non-pressurized piping
- zinc products for stormwater (HWA) installations, including the required pipe supports.

Also in stock: the Geberit Pluvia system. Pluvia benefits include: fewer roof drains thanks to high discharge capacity, more installation flexibility by reducing the number of vertical stacks, and maximum space utilization with horizontal piping without slope.

NICOLL LEAF CATCHER 80MM M/S REDUCED Item No. 191026

PE pipes and fittings for water, sewer, and gas

PIPELIFE
PE 40 WATER PIPE, 20MM, 50M ROLL
Item number 178021

SAB PP THREADED COUPLING TEE, 20 X 20 X 20MM Item number 372121

The benefits of an SML hubless cast-iron drainage system

The SML hubless cast-iron drainage system meets Building Code requirements for noise control and fire safety. Key features include: corrosion-resistant, impact-resistant, wear-resistant, dimensionally stable, unaffected by cold and heat, 100% recyclable, and sound-insulating. In the event of heat or fire, the SML hubless cast-iron drainage system does not release hazardous gases. Ideal for applications such as parking garages and bike storage areas. Our prefab department can cut pipes to size, apply protective anti-rust tape, and assemble fittings. That saves valuable time on the jobsite.

Tool Rental

We offer tool rentals, so you don't have to buy equipment you may only use once. That can save you a significant expense. We're also happy to advise you on our tools and their applications. For example, we rent welding machines for working with PE and pipe cutters for SML. All our electric rental machines and tools are inspected to NEN 3140 standards.

WAVIN WAVIN ELECTROFUSION UNIT EFL20 ItemNo. 139180

ROTHENBERGER
INSPECTION CAMERA ROCAM 50 - 160MM Item No. 131740

Inspection

AIRFIT PP INSPECTION PLUG 100-110MM, GRAY Item No. 130856

INSPECTION PORT SHUTOFF 54 X 110/125/160MM Item No. 131360

PVC

We also carry PVC pipe and fittings for both indoor and outdoor sewer systems from leading brands.

All locations keep a large inventory of the most common sizes. We also stock 200 mm diameter in SN8, plus 1- and 2-meter pipe lengths.

Our team is happy to help you create a piping plan for a home, run capacity calculations for hotels, and of course explain the material properties in more detail. PVC piping is recommended in the National Sustainable Building package because PVC can be recycled. You can drop off used PVC at any of our locations.

Drainage & Infiltration

PIPELIFE PVC DRAINAGE PIPE WITH PP FIBER, 125MM Item No. 181012

PIPELIFE PVC DRAINAGE PIPE WITH COCONUT FIBER, 80MM Item No. 180603

PIPELIFE SPARC IT SEWER PIPE SN8 + SOCKET, 200MM

Item No. 133451

WAVIN
INFILTRATION UNIT 1B-1L 1 X 125MM 200L WITHOUT GEOTEXTILE

For infiltration, storage, and controlled discharge. Certified to BRL 52250. Units can be linked together. Upon request, multiple units can be supplied in one package with a geotextile wrap. Multiple connections are also possible.

Submersible Pump

FEKA BVP SUBMERSIBLE PUMP 750 M-A Item No. 614028

Powerful submersible pump for emptying tanks and draining dirty water, handling solids up to a maximum diameter of 38 mm. Excellent motor cooling, even when only partially submerged.

Wastewater Pump System

KESSEL AQUALIFT F-COMFORT, MONO
Item No. 614114

Wastewater pump system for above-ground installation. Suitable for wastewater containing fecal matter. PE collection tank, capacity 50 L/120 L. With pneumatic level control and a cleanout opening.

Adhesives & Sealants

GRIFFON PVC GLUE T-88, 1000 ML Item No. 616004

GRIFFON PVC CLEANER, 500 ML Item No. 616016

Staufix

Available with a single check valve in various diameters. Staufix is also available with a pump for in-floor installation or freestanding placement.

KESSEL
STAUFIX CLEANOUT PIECE WITH SINGLE CHECK VALVE, 75 MM Item No. 134710

Workwear & PPE

We offer safe, hard-wearing workwear. Choose from brands such as Snickers, Fristads, Tricorp, and Majestic. We can add your company logo, and if you'd like, we can also handle the administration for you with the Clothing Management System. To save time, we can host on-site fitting sessions—for example, during Friday afternoon drinks. To round it out, we also supply protective gear such as safety shoes, head and knee protection, and the right work gloves for every application.

Mounting Hardware

We carry a wide range of clamps from various top brands.

- With or without liner
- One-piece or two-piece Hot-dip galvanized or electro-galvanized, stainless steel, plastic
- For heavy-duty industrial piping applications

We can also prefabricate a wide variety of mounting materials for you. Our prefab department has extensive experience pre-assembling different clamp sets. Any clamp type, quantity, and diameter can be prefabricated to your specifications.

BY VAN WALRAVEN
WATECH PLASTIC SEWER PIPE HANGER BAND, 40MM, GREEN
Item No. 610044

BY VAN WALRAVEN WATECH SEWER ROD 8MM, L= 100 CM
Item No. 287142

Floor Drains

To manage drainage as effectively as possible, we offer a wide range of floor drains from various brands. Our selection includes stainless-steel options for industrial use, plastic drains, floor drains and channel drains for patios, stainless-steel grates, curb inlets for sidewalks, and scrub drains—all designed to capture water as efficiently as possible in streets and gardens. We supply drains and curb inlets from Van den Berg, ACO, Easy Drain, BLÜCHER, Aquaberg, Walraven, Pipelife, Kessel, Wavin, and also Nyloplast. You can also find the matching accessories and mounting hardware for the different drainage pits with us.

AQUABERG
RENOVATION DRAIN, 304 STAINLESS STEEL, 150X150
Item No. 400112

DOOR VAN WALRAVEN
PLASTIC DRAINAGE PIT
200 X 200MM, 165MM INSTALLATION HEIGHT Item No. 470201

DOOR VAN WALRAVEN PVC BOTTOM CONNECTION 125MM Ø 315MM, HEIGHT 700 Item No. 131110

DOOR VAN WALRAVEN WALRAVEN STREET INLET TOP 315MM, KOMO CERTIFIED Item No. 131100

Traps and Connection Kits

SAB REPAIR COUPLING FOR PE, 63MM Item No. 371563

Grease & Oil Separators

Our range includes grease and oil separators from, among others, ACO and Kessel—available in various sizes, materials, and classes;

- Integrated grease separators: simple design, minimal maintenance
- Oil separators
- Separators made of reinforced concrete

KESSEL INTEGRATED GREASE SEPARATOR, PE EURO 4 L/S - CLASS B Item No. 481031

KESSEL GREASE SEPARATOR NG4, MODULAR, ABOVE-GROUND Item No. 481054

Problem Solvers

AIRFIT
PVC CLAMP SADDLE
Item No.: 130875

Designed for retrofit installation—cuts earthwork by two-thirds and eliminates the hassle of exposing the pipe. Includes 2 cable ties.

PIPELIFE SPINNPRO BEVELING TOOL Item No.: 900132

For beveling plastic pipes. Works with standard drill bits, corded or cordless. With a replaceable blade.

AKATHERM
REPAIR OFFSET BEND FOR PIPEREPAIRS Item No.: 101543

- Socket/spigot (reduced)
- 87.5°

MÜCHER EPDM COUPLING GENIUS Item No.: 131487 through 131492

Genius multi flex coupling for up to 2.5 bar water pressure. With integrated tabs that can be flipped out or folded inward. ETA 09/0248. Ideal for connecting pipes of different diameters and/or materials. Available in various sizes.

- Suitable for use at temperatures from 40°C to 120°C
- With 304 stainless-steel hose clamps

MÜCHER FLEXIBLE STRAIGHT EPDM COUPLING
Item No.: 131482 through 131486

Ideal for connecting pipes of different diameters and/or materials. DIN EN 295 4 ETA 09/0248.

- Suitable for use at temperatures from 40°C to 120°C
- With heavy-duty 304
- stainless-steel hose clamps Up to 0.6 bar
- Available in various sizes

MÜCHER FLEXIBLE EPDM REDUCING COUPLING Item No.: 131302 through 131479 Ideal for connecting pipes of different diameters and/or materials. Suitable for use at temperatures from 40°C to 120°C.

- With heavy-duty 304 stainless-steel hose clamps ~ Available in various sizes
- Custom sizes available on request

van Walraven

Since 1968, we've been the wholesale supplier for infrastructure and installation products.

We're the go-to wholesaler with a wide range of infrastructure and installation materials for all kinds of construction projects—from residential and commercial builds to civil works and industry. Our headquarters is in Mijdrecht, and we also have sales locations and distribution centers across the Netherlands.

We go the extra mile

In addition to supplying materials, you can also count on us for technical advice and extra services. For example, renting tools or an on-site storage container, working on a project with prefab systems, and recycling workwear & PPE.

We're happy to give you peace of mind, so you're never caught off guard.

Scan the QR code to see what we can do for you. You can reach us at sales@vanwalraven.com and 0297 300 360
