van Walraven

Fixing and support

Zupor also supplies mini pipe supports for the installation of light pipes. Various accessories are available for securing the pipe supports, such as beam clamps and pipe shoes.

For the fixing and support of industrial pipework, Van Walraven offers the complete range from Zupor, Official Partner of the Abutriek Group.

This range comprises fastening materials that are particularly suitable for heavy industrial applications. Pipelines can be supported using horizontal and vertical pipe supports.

High quality for heavy industry

In the Netherlands, Van Walraven is the exclusive point of contact for Zupor fastening materials. In addition to Zupor, our range of industrial fastening systems includes Maxx products from Walraven and the rail systems of our own brand by Van Walraven.
